

# This Bag Could Save Your Life!

My friend & fellow Patriot,

The true “Protector” is someone who is prepared for anything life may throw at him or her, whether it’s a mugger on the street... civil unrest... or a natural disaster that forces you and those you love from your home to seek safety.

To truly be prepared, it takes the right **mind**... the right **skills**... and the right **equipment** – and for me, your evacuation kit (or “bug-out bag”) is one of the most critical pieces of gear you could ever own!

That’s why I’m so proud to be able to get our **X-BOB “5-Phase Evac System”** into your hands to take care of that critical survival gear need of yours. **I personally designed this bag for the specific needs of a forced evacuation** and I know you’re going to love all the features and bonuses we built into this package.

Oh, and one of those bonuses I promised you was an **“insider opportunity” to take care of your survival food needs** for your new bag – and the food I pack is from Patriot Pantry.

My friend is the owner so **he’s hooked you up with a special deal** where you can get a 3-day survival food supply for your bag for FREE! All you have to do is pick up the shipping to get it to you. (But I promised him I’d keep it a secret so please do NOT share this deal with anyone, ok?)

All you have to do is **call his team at 800-262-4106** and tell them you’re one of “Jeff’s X-BOB clients”. They’ll pull up the special deal and get you squared away!

Oh, and **you can use your “insider clearance” up to 5 times to save up to about \$140** so if you have multiple members in your family, they’re taken care of too!

Anyway, enjoy your new “X-BOB” - and please **be sure to check out all the bonus videos** I prepared for you in your online training dashboard on our site!

Yours in freedom & survival,

Jeff Anderson
